

Basic Detail Report

Plan of the Parish of St Giles, 1834

Date

1837

Primary Maker

William Greenaway Poole

Medium

Map

Description

Made in 1837 and drawn by Poole, Second Clerk to the Board of Guardians of St. Giles Camberwell, this map is a second corrected edition. The first was made in 1834 following the perambulation to check the boundary. Unlike commercially produced maps it is orientated east to west rather than north to south. It clearly shows the Grand Surrey Canal passing through Walworth Road and Peckham, now filled in and used as a footpath and cycle way.

Dimensions

Object/Work: 355 x 488 mm
