

# Basic Detail Report

---

## Club

**Date**  
1770-1800

**Medium**  
Wood

**Description**  
Wooden club. It is a flat double-edged bat shape with a small knob at the top of the wide head. Cuming thought the club was from Van Diemens Land, however this identification is incorrect. The club is actually from Malaita in the Solomon Islands.

**Dimensions**  
Object/Work: 680 x 110 mm
