

## Shield

**Date**

1800-1900

**Medium**

Hide, metal

**Description**

Small shield made of a single piece of thick hide. Oval shaped with a peaked dome in the centre and two round notches at the end. At the back of the dome a handle of hide is attached to the sides by thongs that emerge at the front. 4 metal staples reinforce the dome from the front.

**Dimensions**

Object/Work: 550 x 500 x 130 mm
