

Basic Detail Report

Fan

Date

1800-1900

Medium

Wood, grass

Description

Large hand-held fan with a central circular panel painted with red and green circular designs, surrounded by a radiating fan of twig like bristles made from roots of the kuss-kuss grass. These are inserted into the central panel. The bottom part of the panel has a handle added onto the base with an oval shaped opening. The handle is bound with black textile. India.

Dimensions

Object/Work: 400 x 510 mm
