

# Basic Detail Report

---

## Bag

### Date

1800-1840

### Medium

Coconut fibre cord

### Description

Bag made of string knotted net-work, with a small

opening at the top. Cord forms the basic component of many ornaments. Plaited fibre cord is of great significance in Pacific culture - cord was used to bind together and build canoes, houses and other objects before the introduction of metal nails.

### Dimensions

Object/Work: 200 x 320 mm
