## Adze

### Date

1700-1840

### Medium

Wood, stone, coir

### Description

Miniature adze. It has a wooden L shaped shaft, broken at one end. A stone blade is attached at the other end with coir binding. Adzes have a number of uses in woodworking including: chopping, trimming, shaping and smoothing wooden surfaces. They can act in place of both a carving knife and a plane.

### Dimensions

Object/Work: 152 x 130 mm
