

Basic Detail Report

Club

Date
1800-1900

Medium
Wood

Description
Missile club formed of a long spherical handle decorated

with alternate zig-zag and straight lines carved vertically up the shaft. It has a head with eye-shaped bulges with a small knob on top. These sorts of clubs would have been thrown with the intention of piercing the victim with the handle. The head of the club would have provided weight to assist the throw.

Dimensions
Object/Work: 405 x 80 x 80 mm
