

Basic Detail Report

Kohl-Jar

Date
1550-1086 BC

Primary Maker
Giovanni D'Athanasia

Medium
Serpentine

Description

Small black serpentine pot. It would have contained the cosmetic Kohl, a black mixture used under the eyes to prevent the glare of the sun reflecting off the skin. Dark brown-green in colour. The jar is rounded with a hollowed out interior.

Dimensions

Object/Work: 63 x 193 mm
