

Basic Detail Report

Comb

Date

1830-1850

Medium

Horn

Description

Coronet comb of stained horn. It is a curved crown shape, and has a 6-pronged comb. It has been fairly crudely carved. It would have been used as a decorative hair

accessory. It is no known where this is from, possibly South America or perhaps South East Asia.

Dimensions

Object/Work: 150 x 90 x 80 mm
