

Basic Detail Report

Luck-Charm

Date

1870 - 1917

Primary Maker

Edward Lovett

Medium

Seed

Description

Rounded brown seed of the Entada Scandens with an indent on the top. It was most probably washed up by the Gulf Stream from Jamaica; when found it was regarded as a "lucky bean". It was collected in North West London.

Dimensions

Object/Work: 45 x 20 x 55 mm
