

Basic Detail Report

Vessel

Date
1000-1500

Medium
Earthenware

Description
Small earthenware vase shaped vessel. It has a round

globular body with an inverted cone shaped top tapering to a small round opening. Detailed curved and interlocking linear patterns are painted in black on a cream ground. The drawings and globular shape resemble Huastec ceramic. Mexico.

Dimensions
Object/Work: 80 x 111 x 334 mm
