

Basic Detail Report

Flat-Iron

Date
1850-1900

Medium
Iron

Description
Triangular smoothing-iron made by W. C. Lyng. It has raised markings: 'LYNG' inside a wavy border, and the letters 'W' & 'C' either side of handle. It has a curved

cylinder handle raised on two flat bent plates. Irons such as this would have been heated on a stove before ironing the clothes. There were different sizes and weights for different items of clothing.

Dimensions
Object/Work: 110 x 98 x 150 mm
